

RIF'ATUL HIDAYAH

Cirebon, Indonesia | [+6282219800195](tel:+6282219800195)

hidayahrieva@gmail.com | [LinkedIn](#) | [Portofolio](#)

Informatics graduate from Telkom University with strong interest in data analytics, business intelligence, and machine learning. Skilled in transforming raw data into actionable insights through data preprocessing, visualization, dashboard development, and predictive modeling using Python, SQL, and Power BI. Experienced in analyzing datasets, developing machine learning models, and creating data-driven solutions to support decision making. Interested in applying analytical skills to solve business problems through technology and data.

PROJECT EXPERIENCE

E-Commerce Sales Dashboard

Business Intelligence Project – Power BI

- Analyzed e-commerce transaction data to identify sales performance, customer behavior, and order trends for business insights.
- Developed interactive dashboards using Power BI, Power Query, and DAX to visualize KPIs and improve reporting efficiency.
- Transformed raw transaction data into interactive reports that support data-driven decision making and performance monitoring.

Early Marriage Prediction using Random Forest & SVM

Final Project – Machine Learning

- Developed predictive models to identify early marriage risk based on social, economic, and educational factors using susenas 2024 data.
- Performed data preprocessing, exploratory data analysis, feature engineering, and imbalance handling to improve model performance.
- Evaluated multiple machine learning models using Precision, Recall, F1-Score, and ROC-AUC, achieving 60.22% F1-Score and 83.29% Recall with Random Forest.

Student Score Prediction

Bootcamp Project – Machine Learning

- Developed a predictive model to estimate student scores based on study hours using machine learning approaches.
- Applied data preprocessing, exploratory analysis, and visualization to understand the relationship between learning time and academic performance.
- Implemented and evaluated regression-based models to identify prediction patterns and estimate student outcomes.

CERTIFICATIONS

- | | |
|--|------|
| • Dibimbing.id - Bootcamp (AI Machine Learning) | 2025 |
| • DQLab - Bootcamp (Data Science Fundamentals) | 2024 |
| • DQLab – Fundamental SQL using SELECT Statement | 2024 |
| • DQLab – Python Fundamental for Data Science | 2024 |
| • DQLab – R Fundamental for Data Science | 2024 |

SKILLS

Data Analytics & Business Intelligence

- Data Cleaning and Preprocessing, Exploratory Data Analysis, Data Visualization, Dashboard Development, Data Modeling, KPI Reporting, Power Query, DAX.

Machine Learning

- Regression, Classification, Model Evaluation, Imbalanced Data Handling.

Programming & Database

- Python, SQL, Excel.

Tools & Platform

- Power BI, Pandas, Scikit-learn, Matplotlib, Google Colab, VS Code, Git.

WORK EXPERIENCE

Front-End Developer Intern & Copywriter – Hetero Space Banyumas *JUL 2025 – AUG 2025*

- Developed responsive website pages using HTML, CSS, Bootstrap, and JavaScript to improve digital information accessibility.
- Collaborated with stakeholders to organize content and improve website usability.
- Supported digital service delivery through website maintenance and interface enhancement.

ORGANIZATIONAL EXPERIENCE

Student Representative Council (DPM) *FEB 2025 – DEC 2025*

Supervisory Commission Staff

- Monitored and evaluated the performance of the Ministry of Foreign Affairs under the Student Executive Board (BEM).
- Served as Presidium in 3+ congresses and organizational deliberation forums, facilitating discussion and decision-making processes.
- Led and coordinated committees as Chairperson, ensuring effective planning and execution of organizational programs.
- Managed administrative documentation, meeting records, and official document as secretary.
- Supported public relations activities by disseminating information and maintaining communication with 100+ participants and stakeholders across 5+ organizational programs.
- Assisted in event operations, publication, and documentation activities.

Marketing Crew Telkom University Purwokerto *OCT 2023 – AUG 2024*

Model and Talent

- Participated in 10+ promotional photo and video campaign for university branding across social media and printed marketing materials.
- Collaborated with the creative team as on-screen talent for Instagram and TikTok content to increase audience engagement and brand visibility.

Student Executive Board (BEM) Faculty of Informatics *JULY 2023 – DEC 2024*

Advocacy and Strategic Studies Staff

- Collected, analyzed, and communicated 20+ student aspirations and concerns to faculty stakeholders.
- Conducted assessments of academic, student, and social issues to support organizational initiatives and decision making.
- Contributed to the planning and execution of 3+ student development programs in roles including MC, Event Staff, and Division Coordinator.

EDUCATION

Telkom University - Bachelor of Informatics, GPA 3.76/4.00 *SEP 2022 – JUN 2026*
